13L is a group of artists from Barcelona founded in 1998. They carry out their work chiefly in graphic arts, but also in other fields. Their link is their interest in research and cooperation. The artists who form this group have experience in projects related to the bookworks, and they all agree on the idea that a book is a sequence of time and space, that is, a series of spaces simultaneously perceived as different moments.

A book is therefore also a sequence of moments, according to Ulises Carrión's drawing. As an interpretation of their own particular artistic vision, the book is for them the idea of an open work of art. It is around this concept that leads to personal artistic experience.

The group has shown in different exhibitions and participate in many national and international art fairs.

The members of the group are **Eugènia Agustí, Pepa Busqué, Montse Carreño +Raquel Muñoz, Mercè Casanovas, David Curto, Enric Mas, Jessie Morin, Cristina Pastó, Eloi Puig, Rosa Tarruella, Alicia Vela, Eva Vila Pou i Antònia Vilà.**
